E. W. CLARK & BROTHERS,

BANKERS, AND DEALERS IN EXCHANGE AND MONEY,

CORNER OF MAIN AND OLIVE STREETS,

Will receive deposits in specie funds or currency, and allow interest on the same. — Drafts, in sums to suit, can always be obtained, on all the principal cities in the Union.

Time and Sight Bills, Certificates of Deposit, Bank Notes, and Foreign and American Gold, always bought, on the most favorable terms.

EXCHANGE AND MONEY.

Eastern Exchange is more abundant than ever before in this market; a heavy decline will be noticed in the rates since our last. The offerings of time bills for several weeks past have been far beyond the ability of the dealers to discount. As the Bank in this city now holds as large an amount as her charter will warrant, and as all the means of the private bankers are already invested, we can see little prospect of a change for the better so long as our Rivers remain closed. Collections from the country are small in amount, and but little can be expected until the Produce can reach a market. — The effects of a general scarcity of money is seen in the decline in prices for most articles of produce. The same complaints reach us from all the principal cities in the West.

In the Eastern cities money is in more demand and commands higher rates of interest.

The operations in New Orleans exchange are small, and only in bills having over sixty days to run.

Currency is scarce; all the accumulations at this point are soon scattered through the country in the purchase of produce. Considerable amounts of the issues of the new Banks in Ohio are seen in this market, and freely taken as other currency. Some sales of Illinois State Bank certificates are making at 64 cts. Nothing doing in Shawneetown notes or certificates.

SAINT LOUIS MARKET.

GENERAL REMARKS.

Our last number had scarcely gone to press when the weather turned suddenly cold, and the River opposite the city, being very low, closed, and navigation has been suspended ever since,—rendering our market inactive in all out-door operations; and in no department is there anything doing, excepting the retail trade in the city and the immediate neighborhood. The River closing so early in the season, has prevented much of the Produce of the upper Rivers from coming into market, and many of the country dealers from making their anticipated fall purchases.

The late arrivals from Europe have brought such disastrous news of the extensive failures of crops, not only in England and Ireland, but on the continent, and the starving condition of millions of the people—together with a possibility of the ports of Great Britain being thrown open for the free admittance of American Provisions,—has created an immense excitement in the produce markets throughout the United States. Speculators are on the 'qui vive,' and runners are sent out in every direction, making heavy advances on produce at almost every shipping point in the North and West, and at limitation prices ranging much higher than they have for years. Our private advice to producers and holders, is, to dispose of their entire surplus at present offers. The present excitement must soon subside, and then prices will probably decline from ten to twenty-five per cent., as present prices will not bear shipment even to our own Southern or Eastern ports.

The sudden and early suspension of navigation has left our market almost bare of Groceries, and, as a consequence, prices have advanced considerably. This will last, however, only till our River is open again, as there are large receipts of groceries now lying at Cairo for our market.

THE WEATHER AND RIVERS.—The weather for the most part has continued cold since our last, and we have had almost a continued communication with the opposite shore on the ice, not only for foot-passengers, but market wagons and teams, and droves of live stock.

Discount and Circulation of the Banks of the U. States for eight years.

The most expanded movement of the Banks of this country was in 1837, the year of the suspension of specie payments, when the line of discounts was just double what it is at present, and the issue of paper nearly two for one.

Railways in England.

It appears by the last advices from England that the people of England and France are running mad on the subject of Rail Roads. From official sources we learn that during the last Parliamentary session 109 Railway Bills were passed.

Estimated expense of making the same, £43,339,325. Capital stock provided, £44,741,200. Empowered to borrow in addition to their stock, £14,872,326.

10's, altered from 5's. In the genuine 10's, the word 'Ten,' on the left ornamented border, is upon a black ground, but on a white ground in the altered notes.

Farmers' & Planters' Bank 1
5's, 10's, 20's and 50's, altered from 1's: the genuine 1's, and the altered bills, have for a vignette three female figures, one sitting on a bale of goods, one arm pointed toward a ship in the distance—one of the other figures has one arm resting on a sheaf. On the right margin is a sleeping boy, sickle, basket, rake and sheaf, near by him; on left end, medallion head; they may easily be detected, if reference is made to this description.

100's, letter A, pay J. C. Miller, and M. Martin, of various dates; Phillip Littig, Cashier; J. Bier, President. The first part of M, in 'Marine,' begins at a little distance from the vignette; in the genuine it touches: paper darker, and has no red in it, as the good has.

10's, letter C, payable to S. H. Wentz; various dates. Signed Joseph W. Allnutt, Cashier; J. B. Morris, President. Signatures well done, engraving coarse, and general appearance darker than the genuine. May be detected by the word 'to,' that commences the third line, which is very imperfect, and placed below the line.
10's, altered from broken Commercial Bank, Millington, Md. Vignette, a female holding a distaff in her hand: on her right, a shield, with 'Hope,' on her left, a spinning-wheel. Denomination of note on both ends.
